

# GE Predix Developer Certification BootCamp

Duration: 2 Days

## DESCRIPTION

Industrial IoT (IIoT) is considered as the driver of the next industrial revolution. GE's industrial experience and technology expertise since decades have been proved phenomenal. Right from Jet Engine Components to MRI Scanners, GE have built world class technology gadgets and made its place. IoT is the next big thing and GE again wants to give it's technology driven contribution and hence have developed a well-focused, Cloud based IoT Platform called Predix which is quiet promising.

GE Predix Developer Certification BootCamp is a 2 days course that imbibes the ability of developing smart and real-time solutions using Predix platform. During this course half the time will be spent doing hands-on labs using our carefully designed curriculum. GE hosts a global certification i.e. 'GE Predix Certified Developer' for this IIoT platform meant for architects and developers. This course will help prepare for this certification exam.

## OBJECTIVES

- Learn to perform asset management and utilize data driven services for IoT
- Understanding components and services of Predix eco-system
- Implementing software platform on embedded hardware for edge operations
- Learn how to develop IoT solutions and implement them on Predix platform
- Prepare for certification exam: GE Predix Certified Developer

## COURSE OUTLINE

### Day 1

- Introduction to GE Predix Platform
- Managing Predix Cloud
- Predix Security
- Asset Management
- Predix Machine

### Day 2

- Data Management in Predix
- Predix Analytics
- Predix UI
- Predix DevOps

## WHO SHOULD ATTEND

- Developers who are working or are expected to work on IoT or Digitalization projects
- Professionals who want to jump start their career as Predix Developers, IoT Engineers, Solution Architects or Consultants
- Candidates looking to get certified on GE Predix Certified Developer exam

## PREREQUISITES

- Basic to intermediate level of development skills
- Fundamentals of Cloud Computing – Level 1 course offered by CloudThat Technologies or equivalent experience
- Fundamentals of IoT – Level 1 course offered by CloudThat Technologies or equivalent experience
- Cloud Robotics and Advanced IoT Architecture – Level 3 course offered by CloudThat Technologies or equivalent experience

## TESTIMONIALS

“ The trainer was very thorough and explained the intricacies involved very clearly. In fact, I was quite new to Cloud. Lot of topics have been covered during the training. The labs were quite interesting and well written. ”

- **Srividhya Subramony**  
(Director, Iposa Consulting Pvt. Ltd.)

“ CloudThat trainers were very competent in explaining the concepts on Azure Cloud and relating them with practical use cases which we have in our projects. ”

- **Ankush (Technical Lead, Wipro)**

“ CloudThat - The best place to learn Cloud Computing technologies. Trainers at CloudThat have indepth knowledge about the subject. The way they explain is too good. They give personal attention to all candidates and keep the sessions interactive. ”

- **Gladwin (Cloud Admin, Cognizant)**
