

# Cloud Computing with Microsoft Azure - Level 2

Duration: 2 Days

## DESCRIPTION

Microsoft is also the only vendor positioned as a Leader across Gartner's Magic Quadrants for Cloud Infrastructure as a Service, Application Platform as a Service, and Cloud Storage Services for the second consecutive year. Microsoft Azure is the most popular public cloud platform available in the market today. Microsoft Azure is offering integrated cloud services — analytics, computing, database, mobile, networking, storage and web. This course will give you a thorough understanding of Microsoft Azure services like Compute, Storage and Network.

## OBJECTIVES

- To achieve a thorough understanding of Microsoft Azure technology from fundamentals to advance concepts
- To achieve a comprehensive understanding of Azure services and building blocks
- Learn about Azure Storage and its abstractions
- To Create a Azure Storage Account and upload data
- Start and configure an Azure Virtual Machine compute service in the cloud
- Start a WordPress website service in the cloud. Start, manage and scale an Azure SQL database in the cloud
- Start, promote and scale an Azure Cloud Service for an application

## COURSE OUTLINE

### Day 1

- Azure Fundamentals
- Azure Storage
- Azure File Storage
- Azure Blob Storage
- Azure Table Storage
- Azure Queue Storage

### Day 2

- Azure CDN
- Azure Virtual Networks Overview
- Azure Virtual Machines
- Azure App Service
- Azure Web Apps
- API Apps
- API Management
- Azure Functions
- Logic Apps
- Azure Traffic Manager

## WHO SHOULD ATTEND

- IT Professionals
- SME's
- System Administrator

## PREREQUISITES

- Fundamental course or equivalent experience in cloud computing and virtualization
- IT industry work experience or a degree in the IT field
- Basic understanding of Windows System / Wintel
- Basic understanding of databases

## TESTIMONIALS

“ It was impressive as usual. I got to learn new Azure services and many more which I never worked on. The trainer explained each and every topic in detail.

- Niraj (Software Engineer, Mindtree)

“ All the instructors are very knowledgeable and committed to giving an excellent learning experience. They were very committed to teach all the content of the courses and much beyond and to complete all the labs. The teaching was also excellent”

- Raymond (Project Manager)

“ Trainer has good knowledge on Cloud platform and his industry experience is very good. It is very much helpful in understanding the concepts.

- Shambhu (SME, IBM)
