

AWS Security Speciality Certification BootCamp

Duration: 2 Days

COURSE OUTLINE

DAY 1

➤ Security Fundamentals

➤ Incident Response

➤ Logging and Monitoring

➤ Infrastructure Security

DAY 2

➤ Identity and Access Management

➤ Data Protection

DESCRIPTION

This is a two-day specialty course that deep dives into Advanced Security services of AWS and enhances knowledge of AWS security-related services. This training is focused on “AWS Security – Specialty” Certification, with hands-on labs for simulation of security-related use cases. AWS Security certification validates an examinee’s ability to effectively demonstrate knowledge about securing the AWS platform.

OBJECTIVES

- To gain deep understanding of AWS security technologies
- Implement data-encryption methods and mechanisms on AWS platform
- Choose appropriate security services for workloads
- Deep understanding of various protocols, logging standards and IAM management.
- Design edge security and implement a secure network infrastructure
- Design and implement a scalable authorization and authentication system to access AWS resources
- Design and implement security monitoring and alerting
- Be able to understand Data security, cost and performance objectives
- Be able to understand various real-time use cases, best practice and n/w design patterns

WHO SHOULD ATTEND

- Solutions Architects
- Security Analysts
- SysOps Administrators
- DevOps Engineers

PREREQUISITES

- Should have attended AWS – Level 2 and AWS – Level 3 course (Mandatory) from CloudThat Technologies
- Should have a basic understanding of security and internet protocols

TESTIMONIALS

“ Best training center to learn AWS Cloud Computing Services in India. Training was excellent and trainer has good knowledge about the real world market and used these cases to explain the course content. ”

- **Santosh (NOC Lead, CA Technologies)**

“ Good faculty, great atmosphere, great examples, made my life easier. Wish to advice friends & colleagues to join CloudThat. Great going, keep up the good work. Wish you a great success. ”

- **Veerendra (Assistant Manager, Accenture)**

“ Excellent training, there were lot of things to learn even for experienced AWS user. Trainer has very good knowledge and was able to explain real scenarios which were very good. ”

- **Srinivasa Rao (Technical Manager, Samsung Research India Bangalore)**
